ASSIGNMENT 1

Festivals of India - Cultural Colors

Introduction:

This document presents the development of a vibrant cultural website titled "Festivals of India", created using HTML5. The website showcases major Indian festivals using visually rich content like images, videos, music, and interactive elements. Designed to educate and immerse users in India's diverse celebrations, it makes use of semantic HTML5 elements for structure and accessibility.

The page is informative and interactive with embedded media, progress bars, and a structured layout that makes it engaging for both young learners and cultural enthusiasts.

HTML5 Elements Utilized:

- Structural Elements: <header>, <nav>, <main>, <section>, <article>, <aside>, <footer>
- Text & Heading Elements: <h1>, <h2>, <h3>, <p>
- Media Elements: <figure>, <figcaption>, <img>, <video>, <audio>
- Interactive/Embedded Elements: <progress>, <a>

HTML5 Tags and Their Purpose

Structure Tags

HTML Tag	Purpose
<header>	Website title and introductory tagline
<nav>	Navigation links for internal page sections
<section>	Logical groupings of themed content (Intro, Gallery, Music, etc.)
<article>	Independent, reusable content such as festival descriptions
<aside>	Fun facts or content indirectly related to the main theme
<footer>	Footer section for ownership or contact information

Text Formatting & Content Tags

HTML Tag	Purpose
<h1>, <h2>, <h3>	Structured headings with decreasing levels of importance
<p>	Paragraph text
<a>	Navigation or external linking

Media Tags

HTML Tag	Purpose
<img>	Embeds festival-related images
<figure>	Contains an image and its corresponding caption
<figcaption>	Describes the image for clarity
<video>	Embeds videos showing festival scenes
<audio>	Plays traditional Indian music
<progress>	Shows completion percentage of festival preparation
